## — ABOUT US

# A REPUTATION BUILT ON TRUST

Our business activities and relationships are built on trust and honesty. We do what we promise and always strive to do the right thing. We listen and treat our colleagues and customers and those in our care with the utmost respect. We are passionate about delivering high levels of customer service, and challenge ourselves to find new ways of helping our customers achieve their goals.

We work together as a team, valuing everyone's contribution, to ensure the best results for both our customers and our business.

## OUR FLEET

## — CHOICE

# YOUR PREMIER TRANSPORT PARTNER

We are a freight forwarder with offices and warehouses based near Heathrow Airport with a fleet of vehicles equipped with onboard cameras and trackers, that operate throughout the UK. Our warehouses offer storage and fulfilment services, supported by a warehouse management system. We provide general cargo and specialised services, including event logistics, white glove service, dangerous goods, customs brokerage and carbon offsetting. With a focus on speed, efficiency and reliability, we treat your shipments as our own. Our experienced team takes pride in delivering exceptional service and, based on feedback, our customers enjoy working with us.

### COMPREHENSIVE LOGISTICS SOLUTIONS

From general cargo to specialized services such as event logistics and dangerous goods handling.

### ADVANCED FLEET AND TECHNOLOGY

Equipped with onboard cameras and trackers, ensuring security and efficiency.

### CUSTOMER-CENTRIC APPROACH

Dedicated to exceptional service, we treat every shipment with the utmost care and attention.

## READY TO ELEVATE YOUR LOGISTICS EXPERIENCE?

## — SERVICES

# LOGISTICS

Our team of experts take care of customs and consular documentation for all modes of transportation worldwide.

### **GENERAL CARGO**

From aircraft spares to pharmaceuticals, we can ship almost anything worldwide via airfreight, sea freight, road freight or courier.

### **AOG / CRITICAL AIRFREIGHT**

Priority airfreight, supported by a network of dedicated hauliers and time critical overseas partners. Hand carries can be arranged for that extra care and speed.

### **GLOBAL COVERAGE**

We are members of the Security Cargo Network of tried and tested agents where we make use of their local knowledge and expertise.

### **DANGEROUS GOODS**

Our staff are DG trained and can ship class 1-9 dangerous goods, excluding class 7. We also pack your DG goods

### **CONSULAR DOCUMENTATION**

We can raise your consular documents including ATA Carnets, EUR1, ATR1, COO, CITE's.

### **INSURANCE**

We can provide full value cargo insurance for your goods.

### **CUSTOMS BROKERAGE**

If you have your own carrier, we can also provide a customs clearance only service and use of our deferment account. Post Brexit our clients often require EXA's and T1's.

## — SERVICES

# STORAGE AND WAREHOUSING

We offer storage solutions that provide a safe and secure space for items that can be reused for future projects and installations. Our team has the necessary expertise to help you manage your stock securely for any length of time within our Warehouse Management System (WMS). You can use our WMS to view your inventory and manage pick and pack requirements.

Our storage solutions are designed to help our clients manage their supply chain cost-effectively and efficiently.

### **BUSINESS STORAGE SOLUTIONS**

#### **No fixed term leases or contract**

- You can easily expand or reduce the amount of business storage space you require.

#### **Convenience and Flexibility**

• There are no complicated procedures. We can store your goods quickly and efficiently at one of our warehouses - ideal for exhibition equipment, business stock etc

#### **Competitive Prices**

- Business storage is much more cost-effective than renting commercial premises, meaning we can guarantee competitive prices
- Clean, dry and secure business storage
- Fully alarmed and CCTV monitored facilities.

#### **Fulfilment**

- Pick and Pack Distribution
- WMS Stock Control
- Third-party supplier management

### **BESPOKE STORAGE FOR YOUR BUSINESS NEEDS**

Because you know your business better than anyone, TIV Logistics will work with you to create a tailor-made storage and retrieval solution. We are happy to adapt to meet your business needs.

## — SERVICES

# EVENTS & EXHIBITIONS

TIV Logistics operate a varied fleet of vehicles ranging from small vans to articulated trucks servicing the requirements of your event. Whether you require a van locally or multiple trucks abroad, we strive to ensure the planning of your event logistics is a pleasant experience. Part of our forward planning is to ensure everything runs on time and according to your schedule and budget, we will take care of everything; routes, ferries, local restrictions and any necessary documentation.

We are enthusiastic about our work. Our drivers have decades of combined experience in event logistics, they will manage the loading and unloading of their vehicles with proficiency and expertise ensuring all equipment carried is packed and unpacked safely and efficiently.

In addition to the transportation of your equipment, we can also offer storage in our warehouse between shows and events.

## — ENVIRONMENT & RESPONSIBILITY

# CARBON OFFSETTING

At TIV Logistics, we are committed to reducing our impact on the environment. We believe in the power of carbon offsetting to help reduce greenhouse gas emissions and combat climate change. We help businesses and individuals offset their carbon footprint and contribute to a more sustainable future.

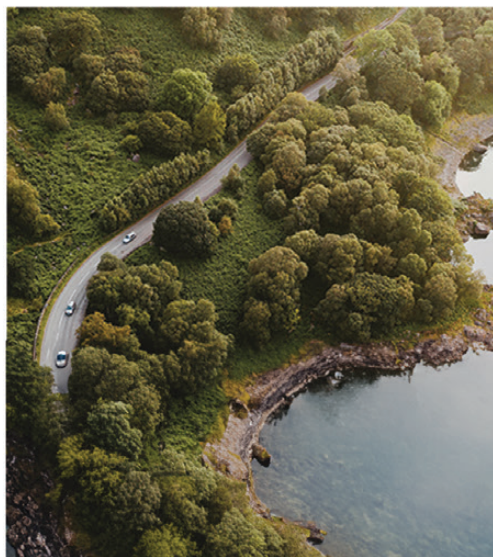

## CALCULATIONS

We calculate your carbon emissions (CO<sub>2</sub>e), either per shipment or over a period of time. We gather the weight, distance, mode of transport and carrier to calculate your carbon footprint. Once we provide you with a detailed report, you can choose to offset your emissions by purchasing carbon credits; one carbon credit is equivalent to one metric tonne carbon dioxide, (tCO<sub>2</sub>).

## HOW IT WORKS

Every company will have some “unavoidable emissions” that cannot be eliminated by conventional means, such as clean energy or electric vehicles. These unavoidable emissions can be mitigated through the purchase of carbon offsets from third parties. Global demand for carbon offsets has created a market in which these can be bought and sold. In these markets, one carbon offset is equivalent to either: removing one metric tonne of carbon dioxide (tCO<sub>2</sub>) from the atmosphere (“removal offset”) or preventing the emission of one tCO<sub>2</sub> (“avoidance offset”). We then issue a carbon offset certificate as proof of what you have purchased. This certificate shows the links to the underlying registries, where you can see the credits that have been purchased.
